FIBERGLASS TANK

FIBERGLASS TANKS

Al Bassam Fiberglass Above and Underground Tanks are made of high quality raw materials to avoid the growth of bacteria, fungi, algae and to provide protection against corrosion and therefore to maintain the quality of the elements. These tanks are available in horizontal shapes only for different applications and usages.

We offer range of fiberglass water tanks such as:

- Aboveground Water Tanks
- Septic Tanks
- Underground Tanks
- Soak-Away Tanks
- Diesel Tanks
- Chemical Tanks
- Bullet Tanks

Easy to handle, install & repair

Prevents the growth of bacteria, algae and fungi

Doesn't damage, even if it is directly exposed to sunlight

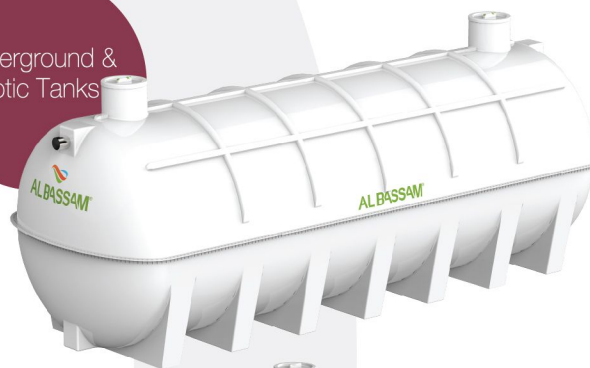

Light weight with an exceptional strength to weight ratio

The versatility of the tank allows it to be installed indoor, outdoor, on the rooftop, ground level & underground.

Aboveground Water Tanks

Underground & Septic Tanks
